technology like WebRTC, BlockChain, Machine Learning etc.
```

## EXPERIENCE

### # Freelance Projects

I created and refactored various types of projects, Improved code, functionalities, business logics, and also ensured applications to act more scalable.

**Projects:**

➔ **TekasaiBD** [ It looks like a basic portfolio website but it includes some cool innovative features like Online Exam which is to take long duration exams online. The way it has been created which is very familiar to bangladeshi general primary and high school curriculum exams. Also It has two types of online quiz test event, Social sharing, Participants auth,  Profile, News Feed, Publications, Creativity submission, and a decent Admin panel to manage and get all summary reports about all these features. ]

# Gain Solutions Ltd, H#1182, Avenue #11, Mirpur DOHS.

*- Full-stack Developer*

February 2, 2020 - PRESENT

Creating Core Architecture for multi tenant Web App, and preparing it as a boilerplate of large scale projects. Working on a Friendly team I'm gaining the best practices and sharing my knowledge through feedback..

**Projects:**

➔ **Gain Core**  [ It's a core app including features like users and role permissions management, Mailing system,  Notifications, General settings. Extending this core app new child applications can be created ]

➔ **Sendex - Email Marketing Application**  [ It's a multi tenant application including features like managing sending email to a large range of subscriber base. It's also includes campaigns management, custom form builder, Segments, Imported and Dynamic Lists, Template builder and Reporting, AWS, Mailgun ]

➔ **Payday - HRM**  [  Multi/Single tenant app including features like Employee auth, Dashboard, Administration, Leave, Attendance, Payroll, Shifting, Rostering, Holiday, Summary Reportings and etc. ]

# Smart Software Ltd, 152/2, Panthapath, Dhaka

*- Back-end Developer*

November 2018 - January 29, 2020

Refactored and Managed Web Apps, ERPs extending new features using the most popular MVC web framework. Gathered skills and explored my abilities by making a friendly environment.

**Projects:**

➔ **Hospital ERP**   [ Includes Outdoor Appointment, Admission and Indoor Management, Medical Investigation System, Lab Management, Prescription, Pharmacy Management, Procurement, Accounting, Commission Management, HRM, CRM, Task Scheduling, MIS Report, Access Control System and more. ]

➔ **Retail**   [ it's an inventory management application including Purchase, Quotation, Sales, Product Return, Accounting,  Reports, etc. ]

➔ Initially worked in a Political Figure, Garments and a Clipping Path portfolio website. See my portfolio here *https://auniik.github.io*

## ACTIVITIES

## EDUCATION

**Dhaka Polytechnic Institute, Tejgaon, Dhaka-1208**

*- Diploma In Engineering*

August 2014 - December 2018

Graduated in Diploma in Engineering with Computer Technology in December 2018. Majors in Programming, Electronics.

## OBJECTIVE

As an energetic and hard working young man, I would be able to work under pressure and strain. Having capability of interpersonal communication and self decision making, I would be able to meet the crucial challenge as well. I will be dedicated and concerned.
